

THE DENTAL CHOICE

Wellsys 2-in-1 bottleless water appliance dispenses purified drinking water, and offers additional filters for laboratory-grade deionized (DI) water for all of your dental office needs.

PURIFIED DRINKING WATER FOR YOUR PRACTICE

- Provide your patients & staff with fresh, pure drinking water.
- Continuous supply of cold, hot, ambient, and even sparkling.

DI WATER FOR AUTOCLAVES & DENTAL CHAIRS

- Optional convenient DI water filter connects directly to your filling station.
- Perfect for all your dental equipment - including autoclaves, operatory instruments, rising stations, and more!

SANITARY, TOUCHLESS, ANTIMICROBIAL DESIGN

- Our SafeTouch™ surfaces contain anti-microbial components in the user touchpad and surrounding surfaces inhibiting the spread of germs in your office.
- Touchless-dispense options allow for touch-free fill-ups.

TIME, SPACE, AND COST SAVINGS

- Increased staff productivity with easy and quick filling station.
- Save on overhead costs when purified drinking water and DI water stem from the same source.
