

THE INDUSTRIAL CHOICE

Warehouse, manufacturing and logistics facilities are choosing to reduce costs & injuries while increasing productivity & efficiency with the Wellsys point-of-use water purification product line.

PURIFIED DRINKING WATER

- Provide your customers with fresh, pure, great tasting water.
- Continuous supply of cold and hot options – satisfying all of your customer needs.

STAY INJURY-FREE & OSHA-COMPLIANT

- Avoid risk of injury by improper lifting of traditional 5-gallon bottles (weighing over 40 lbs. each).
- Stay spill-free and slip-proof with our bottleless cooler featuring a spacious dispense area

INCREASE PRODUCTIVITY & EFFICIENCY

- Easy and quick employee access to a continuous source of drinking water – keeping everyone hydrated and operating at all times.
- Eliminate the time wasted with traditional water coolers – Our point-of-use system eliminates storing, tracking, and time spent replenishing 5-gallon bottles.

NO FACILITY IS TOO BIG OR TOO SMALL

- Our units can be placed nearly anywhere in your facility – accommodating the need for a water source in close proximity to workstations throughout the facility for easy and quick employee access.
- Our technicians can connect directly to your main water line for continuous fresh, pure water.
- Touchless-dispense options allow for touch-free fill-ups.

TOP QUALITY CONSTRUCTION

- High chilling capacity
- Dent resistant frame
- Bulletproof Reliability
